

RUSSIANS AT WIJU ARE READY

Wait the Advance of the Japanese Forces, Who Are But Five Miles Away.

MAY BE FIGHTING VERY SOON NOW

Czar's Followers Have Steadily Retreated--Paris Dispatch
Announces Battle Is Imminent Today--
Waiting Reports.

[Special by Scripps-Mellae.]
Paris, April 4.—According to a report received this morning the Russians have decided not to leave Wiju without a struggle, which is apparently near at hand as the Japanese are now but five miles from Wiju.
At Wiju
Tokio, April 4.—The advance guard of the Japanese army in northwestern Korea on Saturday, occupied Syon-Shion, just south of Wiju, where the Russians are reported to be in force. The Japanese column encountered no opposition, although it was plain that the Russians had

only recently abandoned the post. It is apparent that a serious clash may be expected at any moment as the Russians will hardly permit the Japanese to continue northward to the Yalu without attempting the shipment being the personal donation of one of the high officials of the company.

VOTE FOR WILLIAM RUGER FOR CITY ATTORNEY, SURE

He Is an Honest and Capable Attorney, and Well Worthy of the Support of Every Good Citizen.

WILLIAM RUGER, REPUBLICAN CANDIDATE FOR CITY ATTORNEY
Our citizens who favor clean government and clean men in public office should observe, and no doubt have observed, the character of the campaign being made by Mr. Ruger for the office of city attorney, and the class of citizens who are supporting him.
He is not entangled with any special interests, and, if elected, will deal with all questions, which it may be his duty to investigate and give advice upon, impartially and for the best interests of the public at large.
He has made his canvass among the voters of the city at their homes and places of business and has not

endeavored to secure support by other than reputable methods, and he has won the support of many good citizens of both parties.
He has not received and does not expect to receive, the support of any of the discredited officials, and their retainers, who were recently ousted from power and driven to the rear through the efforts of the Municipal League.
We prophesy a victory for Mr. Ruger, and if our citizens who desire a clean municipal government will make a point of going to the polls and give him the support to which he is in every way entitled, his victory is assured.

miles from its mouth. Their cavalry is concentrated in Wiju. No engagement is expected on the southern side of the river.

Japs Reach Yalu
London, April 4.—Dispatches to the Chronicle from Tokyo, Japan, say it is believed that the Japanese have reached the Yalu river and Chang Seng after an early march over a deserted country. Contrary to expectation, it is apparent the Japanese advance to Wiju will meet no opposition.

Correspondents
Seoul, April 4.—The correspondents attached to the first Japanese column, including myself, will leave Chemulpo Friday, destination unknown.

Excite Chinese
Port Arthur, April 4.—The newspaper Novl Kral today declares a new native newspaper established at Shanghai purpose exciting the Chinese against the Russians.

Find Spies
Port Arthur, April 4.—A dispatch received today reports that spies with maps and notes have been captured at several points on the eastern Siberian in direction of Lake Hailui. This leads to the belief the Japanese are ambitious to extend the invasion as far as the lake.

Russians Make Stand
Ping-Yang, April 4.—The Russians hold the Yalu river for seventy-five miles from its mouth. Their cavalry is concentrated at Wiju.

Menace the Yalu.
London, April 4.—A Shanghai correspondent gives an unconfirmed report that a Japanese army of 105,000 men has landed opposite Taku-Shan, in southern Manchuria, and is marching north and northwest, that another army of 40,000 has landed in northwestern Korea and is marching toward the Yalu river and that a third force has disembarked in northeastern Korea and is marching westward.

Russians Are Repulsed.
Seoul, April 4.—The Japanese troops advancing toward the Yalu river have had another action, easily repulsing the Russians. It is asserted here that forty Russians were killed and wounded and that a number were captured. The Japanese losses are given as thirty.

OCCUPY SENG-CHENG.
Failure of Russians to Make a Stand Is Disappointing.
Seoul, April 4.—The Russian forces in northern Korea are falling back toward the Yalu river. Saturday the Japanese without opposition occupied the important town of Seng-Cheng, on the Pekin road, twenty miles west of Chong-Ju, from which the Russians were driven last Monday. It had been expected that the Russians would make a stand at this place, as owing to its position forty miles south of Wiju, on the Pekin road, it is considered of great importance.

But when the advance guard of the Japanese army approached the town it was met by large numbers of the inhabitants of the place, who said that there was not a Russian soldier there. All had left the previous day, retiring in the direction of Wiju.

The Russians having failed to interpose effective opposition to the advance of the Japanese, which has been rapid during the last few days, it does not now seem probable that there will be further opposition this side of the Yalu.
Chong-Ju, because of its superior natural surroundings, is the strongest place between Ping-Yang and Wiju. Besides the natural advantages there is an old Korean fort there, which, had it been defended with spirit, would have been hard to take. The Japanese are gratified at the

comparative ease with which they drove the Russians from this fort.

It is reported that the ice on the Yalu is well broken up and in the future the river must be crossed either in junks or over pontoon bridges.

Will Arrive in Force.
Tokio, April 4.—The Japanese army has now reached the Yalu river, northeast of Wiju, after an easy march over the deserted country.

Contrary to expectation, it is now apparent that the Japanese advance to Wiju will meet with no opposition, even from the harassing Cossacks. They will arrive there in force within the next few days after a rapid march.

CAN FORCE THE YALU.
Russians Have Secured Strategic Position and Await Outcome.

London, April 4.—A correspondent at Wiju-Hai-Wol gives an outline of the present situation and says: "General Kuroki's army is now in a position to attempt to force the Yalu whenever and wherever he may decide, but, apparently having secured a strategic position, he is awaiting the development of the second Japanese mobilization before making a decisive move."

"The country which the troops are now operating in has been studied with a view to rendering the operations of the Cossacks less valuable than those of well-trained infantry. In outpost affairs hitherto honors have been more or less equally divided."

"Latest trustworthy reports show that the main Russian concentration is on the line from Liao-Yang to Hai-Chang, south of Mookden, and that arrivals from the north and depletions from the Port Arthur garrison are concentrated there at a convenient point for dispatch to the Yalu. There is also a mobile force in readiness to meet any other threatened Japanese advance or landing."

Postpone Monument Unveiling.
Springfield, Ill., April 4.—At the request of Governor Yates the committee on arrangements of the Illinois Shiloh battlefield commission has changed the date of the dedication of the monuments to the Illinois troops from April 12 and 13 to May 17 and 18.

CZAR SAYS HIS FLEET WILL SAIL

Announces That the Baltic Sea Fleet Will Go to the East Now.

[Special by Scripps-Mellae.]
St. Petersburg, April 4.—The czar decided the Baltic sea fleet is to sail to the far east by July 15 at the latest. It is stated England has sent assurances the fleet will be allowed to pass through the Suez canal.

George Wresak of Upper Lehigh, Pa., was arrested charged with the murder of his wife, whom he is alleged to have struck on the head with a flatiron during a family quarrel. The woman died. Wresak admits the charge, but claims he committed the fatal assault while in a state of intoxication.
Mrs. George J. Gould, who was operated on for appendicitis, continues to improve.
Senator Allison is much better. He received a number of colleagues Sunday. If the weather is good he may attend the session of the senate today.

VOTE FOR LUSE FOR SUPREME JUDGE TOMORROW

Do Not Make Any Mistake—Be Sure and Put the Cross in the Right Place.

Citizens in general and business men particularly should vote and urge others not to forget to vote for Judge Luse. He is the choice of the Lawyers' association who recommend him in the highest terms for his unbiased opinions, accurate judgment, and thoroughly honest convictions. He is a man of irreproachable character, undoubted ability and not under obligations to any set of men or any personal influence. Judge Luse's name appears at the bottom of the list in the judge's column.

ALLEGED CRUEL TREATMENT BY

King Leopold's Government in Congo Free State—Hard Charges Brought Forward.

[Special by Scripps-Mellae.]
Washington, April 4.—Dr. William H. Morrison, a missionary to Luaba, Congo Free State, this morning made specific charges to the state department against the administration of King Leopold's government, alleging cruelty and rapacity. He says the slave trading is systematically carried on by the state. In my district two-thirds of the people are slaves caught in the interior and brought down for sale. One can buy slaves any day for ten or fifteen dollars. He charges an enormous tribute to the people and in default of natives murdered.

HARRIMAN NOW SAYS ITS WAR

Applies to Court to Secure His Original Holdings in Northern Securities Company.

RAILROAD MAGNATES ARE AT WAR

Hill and His Followers Are Accused of Endeavoring to Evade the Supreme Court Decision in Distributing Merger Securities.

[Special by Scripps-Mellae.]
St. Paul, Minn., April 4.—Alleging that unless his appeal is granted the object of the United States supreme court's decision against the Northern Securities Company will be defeated by James J. Hill, J. P. Morgan and others, E. H. Harriman asks the United States circuit court to enjoin the dissolution of the railway merger until he can plead the justice of his claim in the petition he filed Saturday. He is fighting to obtain the return of the original Northern Pacific common stock he and Winslow

Pierce exchanged for Northern Securities stock. He seeks also to secure other Northern Pacific common stock which was created by the conversion of preferred stock of that road which he and Pierce exchanged for Northern Securities stock.

Trust Will Still Exist.
In his petition Mr. Harriman gives the amounts of Northern Pacific stocks he and Pierce exchanged for Securities stock and the values at which the exchange was made. He gives also the plan adopted by the Morgan-Hill crowd after the supreme court's decision saying the merger was an unlawful trust and declares that plan will leave control of the Great Northern and Northern Pacific roads in the hands of the same man.

ROCKFORD POLICE HAVE A MYSTERY

Discover a Bottle Containing Note, in Rock River—Purports to Be Suicide.

Rockford police are trying to unravel the mystery that surrounds the finding of a bottle containing a note, at the Snow pickle farm, north of Rockford, Saturday noon. The note read as follows:

"I have drowned myself. I am tired of living. Goodbye."
"ANNIE MUNROY."

"P. S. Anybody who finds this, if they look under the coal chute at Rockford they will find my money in a box."

Rockford officers are inclined to think that the bottle was thrown into the river Friday and may be nothing but an April fool hoax, but will be on the lookout for clues just the same.
The above dispatch was received in Deloit, but as no family or individual by the name of Munroy is known there it is probable that either the writer or the note was a stranger or as stated in the dispatch, wrote the note for a joke.

A man who gave the name of Walter W. Wilson walked into police headquarters at New York and announced that on Aug. 1, 1903, he and a partner, who were drivers for the United States Express company in Illinois, stole a package containing \$1,180 from that company. The partner, he said, is serving a six years' sentence. Wilson was held for examination.

London, April 4.—The news has reached here of heavy fighting in Nigeria, in west Africa, in which the British square was broken and many soldiers killed and wounded.

FOR STEALING A LOAD OF BARLEY

Ben Harding Was Arrested Saturday Afternoon—Trial Set for Next Monday.

Ben Harding who served a sentence for breaking into McLellan's saloon in 1899 was arrested late Saturday afternoon on the charge of stealing a load of barley from Walter Shultz' granary in La Prairie. The theft occurred last Tuesday night and Friday evening the thief or thieves culled again for a load of oats. Depredations of this character have been going on for some time. Wesley Shimeal lost a load of oats and corn in March and a whole crib of corn belonging to Mr. McCuen who resides near Afton was carried away during the winter. Harding, who moved here three weeks ago, was arrested in a river street saloon. In municipal court this morning he waived examination and his trial was set for April 11, at 10 a. m. His bail was fixed at \$800.

Is Not Smallpox: Geo. Sykes, who formerly lived on Milwaukee avenue, and now is residing on Glen street and is reported to have contracted smallpox because of a case which was confined in the same house over a year ago, desires it known through his physician, Dr. E. E. Loomis, that he is suffering from a chronic ailment which he has been afflicted with a number of years.

THESE MEN ALL WORTHY A VOTE AT POLLSTOMORROW

The Republican Ticket Is Good From Top to Bottom, and Should Be Supported in Its Entirety by the Voters.

HOW TO VOTE.

Every tax payer in the city will realize the importance of voting tomorrow. It is the one election of the year that has to do with local affairs, and it is of vital moment to every tax payer that the best men be elected to office.

The influence of the Municipal League is recognized in the nominations made, and there is nothing to be said against the character of candidates on either ticket.

The campaign has been free from personalities and abuse and nothing has been published on either side that need give offense. The republican party has placed in nomination an exceptionally strong ticket. In selecting men, ability as well as good moral character has been taken into account. These men are party nominees. No dishonest or underhanded methods were used in securing nominations, and while rivalry existed in some cases, it was of friendly sort, and the will of the majority should be cheerfully recognized, as it doubtless will be.

The Gazette believes that the city will be well served by electing the republican ticket from top to bottom. This can be done by placing a single X at the top of the republican column and it will be done if a spirit of interest and loyalty is displayed by individual members of the party.

The city has an enrollment of about 1800 republican voters. This means a safe majority of from 300 to 500. The entire vote however, in a spring election seldom reaches 3000, and is frequently not more than 2700.

An analysis of a light vote always discloses the fact that the shortage is largely on the republican side, and when party candidates are defeated, it simply means that the men who owe them support are indifferent to one of the most sacred and important obligations of citizenship.

The man who refuses or neglects to exercise the right of suffrage in a city election, has no right to protection, and no cause for complaint if the city is not well governed, and yet this class of men are usually found in the ranks of kickers.

The republican ticket this spring is entitled to the hearty support of every republican in the city. If this is accorded the entire ticket will be elected tomorrow.

CITY TICKET.

Vote for Jas. A. Fathers for City Treasurer. While he has no opposition he is entitled to a full vote as an endorsement of an honest and efficient administration.

Vote for William Ruger, Jr., for City Attorney, and be assured that the interests of the city will be intelligently safeguarded and its legal claims well represented.

Vote for W. S. Jeffris for School Commissioner at large and retain a good man in an important office.

Vote for Jesse Earle for Justice of the Peace and no mistake will be made in the department of justice.

FIRST WARD.

Vote for W. H. Merritt and W. H. Grove for Aldermen and the Ward will be well represented in the Council.

Vote for W. E. Carle for Supervisor and retain in office one of the best men that ever served the city on the board.

Vote for G. H. Erredge for Constable and elect a good man to office.

SECOND WARD.

Vote for J. J. Comstock for Alderman. He has been tested in positions of trust, and always found faithful.

Vote for H. D. Skavlen for Supervisor and you will make no mistake.

Vote for E. B. Heimstreet for School Commissioner and elect a man who never wearies in good work.

Vote for A. K. Cutts for Constable. He has borne the test for years and is faithful.

THIRD WARD.

Vote for Frank H. Jackman for Alderman and you will elect one of the best representatives in the city.

Vote for E. D. McGowan for Supervisor, and the city will have a good legal representative on the board.

Vote for Wallace Cochrane for Constable to serve until he is promoted to the higher office of sheriff.

FOURTH WARD.

Vote for Fred S. Sheldon for Alderman and the Ward will have an enthusiastic and intelligent representative in the Council.

Vote for Fred P. Grove for Supervisor. Mr. Grove has had experience and has proved himself worthy of support.

Vote for A. L. Hennings for School Commissioner and continue a good man in office.

Vote for Miles Cox for Constable and the Ward will retain a good officer.

FIFTH WARD.

Vote for Charles Warren for Alderman, and have a good representative in the Council.

Vote for C. E. Snyder for Supervisor and the Ward as well as the city will be well served.

Vote for Fred Jeffris for Constable, and justice will be assured.

SUPREME JUDGE.

Vote for L. K. Luse for Judge of Supreme Court. The contemptible fight put up on Mr. Luse by the administration entitles him to the support of all decent republicans. Mr. Luse is exceptionally well qualified for the place and should be elected.

WHEN THE GAME LAWS ARE UP NOW

Sportsmen Can Use the Shot Gun with Freedom After the Tenth of This Month.

Janesville hunters are looking forward to an unusually active season this spring. The hunting season opens April 10th and closes April 25th.

It will go bad for the ducks, the predictions of those who are interested in the sport. Janesville hunters are placing orders for their shot long before the time. Judging from the number of orders already received, the surrounding swamps and lakes will contain much shot that will have gone into the air. Several hunters have placed orders for boxes of shot with local ammunition dealers.

Shotguns will be used in bringing the game to ground. Rifles are scarcely ever used. The shells are loaded with the shot by the ammunition dealers, machines being used for this purpose.

The season includes three Sundays and it is on these days mostly that most of the hunting will be done. Last year hundreds of ducks were gotten without using powder. The ice was covered with water, the ducks alighted and the cold weather froze them to the ice and a great many men ventured out and killed them with sticks. Whether this will be the case this year or not is doubtful. However, enough powder and shot has even now been ordered to kill all the game which will make its appearance in the vicinity of Koshkonong.

TEACHERS CLOSED THEIR SESSIONS

Southern Wisconsin Teachers' Association Adjourned on Saturday Last.

Madison, Wis.—(Special).—Three hundred members of the Southern Wisconsin Teachers' association, the largest of its kind in the state, met in convention here and adjourned Saturday after electing officers and listening to addresses by prominent educators with many new remarkable ideas. Prof. D. O. Kinsman of the Whitewater state normal school, in maintaining the affirmative of a resolution on Has the teacher any duty to perform outside the school that others of equal intelligence do not have? said "I fear that the divorce of church and state in this country is a grave mistake. If the teacher will go to church and Sunday school the pupil will follow." He contended that it was a duty which the teacher owed himself and the state to attend religious services regularly and to assist in teaching it.

Superintendent E. W. Walker of Delavan said in reply that "Sunday is a day of rest and I believe that there are enough persons not engaged in school work who are fully capable of conducting Sunday schools."

President Charles R. Van Hise of the Wisconsin university afforded the surprise and sensation of the session when in his address of welcome he advocated that no student be allowed to enter athletic contests until he had attended the university one year at least. He suggested this as a remedy for evils which he admitted existed in university athletics. He said that it has always been his aim to keep these athletics pure but that he had not always been successful. Sports, he said, generally furnished athletes with money to enable their attendance at the university and that the adoption of his suggestion would obviate the evils pertaining to the present system. He also referred to what he admitted regretfully to be a fact, that visiting athletic teams are not always fairly treated. He advocated the general enlargement of the gymnasia in high schools and universities, because most of the work is done inside.

"Manual training should aim to stir the mental activity of the child and not to teach a trade," said J. D. Harvey, superintendent of the Stout manual training school at Menomonie.

Prof. S. H. Clark of the Chicago university addressed the teachers on The Tragic Ideal and other speakers followed.

Governor La Follette was present and addressed the association in a stirring appeal for the support of the teachers in their work. He deplored that the occupation of teachers was far less compensated than ordinary walks of life and this particularly was so in view of the great responsibility resting upon the moulders of youthful character.

The annual election of officers resulted as follows:

BUSY PERIOD IN TOBACCO TRADE

MUCH OF LAST YEAR'S CROP IS BROUGHT IN.

PACKERS ARE HARD AT WORK

Local Packing Houses Have Their Hands Full Receiving the Deliveries of the Last Year.

Saturday was busy at several of the local warehouses, growers were delivering their crops, and the local warehouses to handle the amount of tobacco that was brought in. A. N. Jones, Sanford Soverhill, and Robert Barler were receiving most of the tobacco delivered in this city Saturday.

About the same amount of business has been transacted by those interested in leaf tobacco as that of last week, and perhaps one or two more warehouses have opened up their assorting rooms. The declining of many dealers here to do any riding to an extent is naturally having a great effect on the delivery of the crop and until more active riding on their part the tobacco situation will not make any noticeable progress. And as the season is getting late the farmer will soon begin his spring work and let the tobacco take care of itself, and in many ways a more profitable occupation for the season of 1904.

Those that are riding this week are H. S. McGinn up in the Vernon County district; A. N. Jones, J. L. Soultman, S. Soverhill, G. H. Rumrill and N. Carle.

The eastern buyers are gradually drifting this way. Julius Marqusee of New York is the first one for some time, being here Tuesday.

L. B. Carle, Son bought during the early part of the week 4000 of 1901-1902 and sold 15000 of '01 and 100,000 of 1902-1903.

G. H. Rumrill sold 9800 of 1902 from this city and Evansville and received a (the latter place Tuesday).

The total number of hands employed herenow in the various warehouses will reach the 250 mark.

The movement of the tobacco crop continues in the same indifferent manner for several weeks past. A moderate amount is being purchased at low figures, on an export basis, while an occasional lot of choice goods brings more encouraging prices, but nowhere do the buyers show a disposition to pile up extensive holdings.

Old leaf is moving moderately but generally in small lots to manufacturers. Geo. Rumrill reports the sale of 14700 of 1900-02 crops for the week. Conway & Hubbell received about 5000 of '01 and '02 from growers.

The shipments out of storage reach 21 cars, 1002 cases, from this market to all points since last report.

LAND LAWS STILL BOTHER CONGRESS

Much Opposition to the Repeal of the Former Laws Distributing Public Lands.

Realizing the situation, Congressman Reeder introduced a comprehensive bill amending the irrigation act and repealing the above land laws, which he is quoted as stating, allow for the procuring by speculators and stockmen of very public lands which it is expected that the government will irrigate, and this bill he had referred to the irrigation committee. A number of the members of this committee are favorable to the consideration of the public lands question and would vote to report on such a bill and get it before the House for the general discussion. This however is the very thing which the opponents of land reform desire to avoid. A meeting of the irrigation committee of the House was held on the 14th, and Mr. Reeder called up his bill and the committee set a date for its consideration. It seems however that the bill is to be smothered, by one means if not by another. After the adjournment of the irrigation committee meeting, its chairman consulted with chairman Lacey of the public lands committee, and the latter, waiting for an opportunity when Mr. Reeder and his friends were absent from the floor of the House, made the point that an error had been made in referring this bill, and that it was a land bill and he asked unanimous consent that the Reeder bill be re-referred to the public lands committee, which was done. Mr. Reeder's resolution is really to determine the sense of the House as to whether his bill shall be left in the pigeonholes of the public lands committee or whether it shall be considered by the irrigation committee with a view to some definite action to save the public lands from speculation and absorption by private interests.

...Forty Years Ago...

Janesville Daily Gazette, Monday, April 4, 1864.—We have heard of no ward nomination by the copperheads except in the fourth, though they may have made them. Their great fight is to be on the general city ticket. If they could succeed in electing any portion of that, or even in reducing the republican majority of last spring, they would make a great blow at it, and the Madisonian and the Milwaukee News would not get over rejoicing at it under six months. Don't let us give those intensely disloyal papers any chance to crow.

We understand that J. M. Hazelton is nominated in the fourth ward for alderman, by the copperheads. Jared will be active and unscrupulous, and Mr. McDougall's friends would be on the lookout for him. They must work and get out their full vote or we fear that they will be beaten. The fourth is not apt to give a very heavy republican vote, but there are some excellent workers there, who will give a good account of themselves.

Should it be fair tomorrow, we

hope our industrious merchants and manufacturers will not feel too much driven with business to spare a few minutes to go to the polls and deposit their votes. It will never do to let the election go by fault, and then spend the year in grumbling at the mal-administration of our cities affairs by our copperhead opponents.

The Declaration of Mr. Smith.—Messrs. Editor:—Street rumors inform me that I have this day been put in nomination by the democratic convention for in my opinion, the most important office on the city ticket. This nomination for several reasons, I must most respectfully decline. First, I cannot consistently with my well known views accept a nomination from any political party until the rebellion is suppressed. Second, that I believe that the gentleman, Capt. MacLennan, already before the people for the same office, will discharge the duties thereof, much better than I could do if I had the time to devote to it. Third, I cannot in justice to myself and others give it necessary time and attention.

A. Hyatt Smith.

GREAT WORK OF MUCU-TONE

Now Rexall Catarrh Cure Won Our Endorsement Strictly On Its Merits

When we first heard of Rexall Mucu-Tone we were not particularly interested in it. We knew every Rexall remedy was made of the best materials and by experienced chemists and pharmacists, and we were satisfied that when the Rexall Company produced a catarrh cure it would be thoroughly meritorious. But we were not at all "excited" about it. When we saw the formula it struck us as something new and very good, so that when some of the first bottles of Mucu-Tone arrived we unhesitatingly recommended it to several chronic sufferers from catarrh—customers of ours.

Within a few weeks the reports began to come in and as we heard of the prompt cure of case after case that had stubbornly resisted every other medicine and treatment, our interest grew until now we are honestly and earnestly enthusiastic about this splendid remedy.

Mucu-Tone is the cure for catarrh and if you could stand in our store day after day and hear the grateful words of sufferers who have been restored to health by it, you would grow just as confident as we are.

JOHN H. SPENGLER.

City Engineer Spengler, of Chicago, is one of the foremost men of his profession in this country. The plans for some of the greatest municipal works in the last few years have originated in his brain, and have been carried out under his technical direction. He is a man of commanding authority in his profession.

In giving the merits of Mucu-Tone he writes:

"Last winter I contracted a case of the grippe, and following it I suffered from severe inflammation of the membranes of the nose and throat, for which I could find no relief. I tried I was on the way to chronic catarrh. I tried the usual home remedies, but with merely an alleviating effect. My druggist called my attention to the merits of Mucu-Tone and in the course of a few weeks' treatment every troublesome symptom has disappeared. The cure was radical." J. H. SPENGLER.

This is the testimony of hundreds. Rexall Mucu-Tone works through the blood. It drives out the poisonous matter with which the mucous cells are congested, allays the inflammation and builds up the body. It makes sick people well; weak people, strong.

Remember that catarrh is not merely a disease of the head and throat, but that it may affect any or all of the organs of the body. Remember, too, that Rexall Mucu-Tone is the only positive and permanent cure known to science. Give it a trial and if not more than satisfied, we will refund your money without question.

Sold only at our store or by mail. Price, 50 cents and 99 cents per bottle.

ELECTION NOTICE.

OFFICE OF CITY CLERK, March 29, 1904.

TO THE ELECTORS OF THE CITY OF JANESVILLE:

Notice is hereby given that a municipal election is to be held in the several wards and election precincts in the City of Janesville on the 5th day of April, 1904, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to this office, are given opposite the title of the office and under the appropriate party or other designation, each in its proper column, and the questions submitted to a vote are stated below.

Information to Voters.

The following instructions are given for the information and guidance of voters: A voter, upon entering the polling place and giving his name and residence, will receive a ballot from the ballot clerk, which must have indorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. The voter if he wishes, to vote for all the candidates nominated by any party, should make a cross mark, X, under the party designation printed at the top of the ballot in the circle made for that purpose. A ballot so marked and having no other mark, will be counted for all of the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased or a cross mark be placed in the square under the name or at any place in the space occupied by the name or names of candidates in another column, and will be counted for all names written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark under the name of each candidate he desires to vote for, or at any place within the space in which the name is printed. If he wishes to vote for a person for a certain office, whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memoranda to assist the voter in marking his ballot, can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed indorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth, or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same, to be chosen by the voter; and if he declares that he is totally blind he may be assisted by any person chosen by him from among the legal voters of the city. The presiding officer may administer an oath in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:

NATIONAL ECONOMIC LEAGUE.

In 1899 there was organized in the city of New York for the purpose of introducing a campaign of education, "The National Economic League." The promoters were prominent in the financial, industrial and labor world, and the movement is now endorsed by the best thought and most conservative judgment in every department of work.

After four years of earnest and tireless work, in preparing and sending out literature, broadcast the League has decided to publish a magazine to be named "Labor and Capital." The prospectus gives the aim and object of the league, and defines the mission of the magazine. It says: "At no time in the history of the United States has the Nation been face to face with greater dangers threatening its industrial and social welfare."

Socialism as it is generally understood is a menace to the whole body politic; the growing tendency to municipal ownership is entering every railway, express, mine, telegraph, telephone, gas and electric light company in the country; the work of sensational newspapers and social malcontents is fermenting antagonism between Capital and Labor, between the rich and the poor instead of seeking harmony. There are real dangers.

The National Economic League believes that the cure for the evils now so disturbing the industrial and social world, especially in this country, is EDUCATION. To meet these problems squarely, fairly and without prejudice, to concentrate the best brains of the Nation on their solution; to give the widest publicity to the presentation of facts in a thorough CAMPAIGN OF EDUCATION, the National Economic League was organized in 1899. Since that time it has been collecting data for the best development of its plans, circulating carefully selected literature, and organizing on a broad national basis for its work. It stands for the preservation of America's industrial and commercial supremacy.

The Need for the League's Work. The League has made a study of the conditions for the past three years, and is in a position to state that the people are very seriously studying the question of Socialism, looking forward to its supremacy for a relief from all their troubles. Socialism is so plausible in its theories, so apparently showing the way to the promised land, so nearly converting merely by the assertion of its principles, that the burden is not upon the Socialists to show that their doctrine is right, but upon their opponents to show that it is wrong. Unless this burden is properly assumed, the people will have become Socialists ere it is known, with all that that may mean.

There are more than three hundred Socialistic papers and magazines published in the United States today, having a combined circulation of from 3,000,000 to 4,000,000 copies weekly and distributed very largely free to all classes of wage-earners. The prime object of these papers is to preach discord and dissatisfaction, and to teach the wage-earner the value of and how to use the ballot for his own emancipation. In addition to the powerful press operated by the Socialists to promulgate their doctrines they have constantly at work in the field lecturers traveling from town to town in vans, equipped for that purpose, from which they deliver lectures to the people night and day, upon upon them the benefits to be derived from a Socialistic Government. Sunday, week-day, and evening schools have also been opened in many cities. Socialistic efforts to capture large bodies of organized labor are meeting with more and more success yearly.

The League's Mission—Its Magazine, "Labor and Capital."

The League's purpose is to destroy these forces which are constantly at work to undermine the present industrial conditions in the United States. The plan adopted is purely educational, and has met with universal approval among employers of labor to whom it has been submitted. It is to enroll in the organization the wage-earners of each industry, thus making them recipients of sound, logical, wholesome literature on all these vital topics, disseminated from an unbiased non-political source, written without prejudice by members of our Board of Editorial Associates, who have agreed to devote their time and brains to this cause without remuneration, and designed to counteract these false and dangerous doctrines which are being spread broadcast over the entire United States, teaching class hatred, agitating the wage-earners, and stirring up the passions of the vicious, which will, unless checked, surely end in riot and destruction, and the downfall of American institutions and industries. The League already has 100,000 subscribers, wage-earners who have asked for its magazine, and this number is being increased daily.

The Co-operation of the Best Thinkers.

Over two hundred of the ablest thinkers of the Nation, representative men of all classes—capitalists, editors, manufacturers, clergymen, bankers, labor leaders and others—have promised to write articles for dissemination of the League. Many of them are men who could not be persuaded to write for a magazine or review, but because of their deep interest in this educational movement, they will all contribute to the League's Magazine without payment of any kind. Many national newspapers have also placed their columns at the disposal of the League to present these articles to the public.

What the League's Magazine Will Accomplish.

These literary contributions will give the strong, virile thought of able men, specialists in their respective lines, who view the subject at close range, from a practical standpoint. They will counteract the poison of the sensational press that prints inflammatory articles calculated to deepen and intensify rebellion and class hatred, by presenting one-sided views, often so cleverly written and so speciously, that the fallacy will pass undetected by those who accept it as gospel. The only way that error can be met is by throwing on it the pure white light of truth, by confronting misstatement by real facts presented in the simplest, clearest and most vivid form.

Its Value to the Business Men of America—Their Support Necessary.

The columns of this Magazine will be open to all who give their support to the League; they will be entitled to publish articles bearing upon any question which may be agitating their employees at any time, or the League will appoint one of its Board of Editorial Associates to answer any question or argument which may arise, bearing upon any subject in any industry or circle, in an endeavor to promote harmony and reach logical conclusions. The success of the League depends upon the support and co-operation of every employer of labor in the United States. We want a list of all your employees, giving home addresses and in what capacity employed. Through a revenue from advertising and subscriptions the Magazine can be made self-sustaining and eventually reach every wage earner and business man in the United States from an acknowledged unbiased source, (not distributed by the employer), insuring its being read without prejudice.

Not Published for the Purpose of Making Money.

Any receipts from subscriptions or advertisements in excess of expenditures will be used to distribute the Magazine gratuitously in the very best avenues. This work is one of self preservation and will be of incalculable benefit to every employee and employer in the country, and every manufacturer, merchant, banker and business man in the United States should take pride in supporting it. Our two great business rivals, Germany and England, are, like ourselves, having their troubles with that element of society called "labor." The one of these three countries that shall first settle the labor question so as to make it possible for industries to progress in accordance with the facilities at hand, will get such

lead in extending its commerce all over the world that it will take a long time for the rest to catch up. Effective Way of Presenting Facts and Figures.

The League will also collect facts and figures on all vital questions relating to present day problems in sociology and industry and present them in terse, clear statements and clever diagrams and comparisons that will appeal to "the man in the street." These telling, effective presentations of facts will be printed in many newspapers, covering the entire country. They will have the force of bullets that go straight to the mark. Bringing the Best Thought to the Home.

The League will open a "School of Correspondence," supplying to all its members the best educational literature on these vital questions, keeping in close touch with its members, and through a corps of specialists answering, so far as possible, all questions that fall within the scope of the League, and supplying the latest and best data on the different phases of these questions.

The Broader Outlook for the League.

In its larger development it will broaden its field of usefulness by constantly strengthening its lines, widening its scope of influence and establishing new methods, as the needs and experience of the League may prove wise and expedient. It will be noticed that this is purely a work of patriotism, prompted by love of country, and an earnest desire to protect it from dangers that threaten within the fold. The League is entitled to the sympathy and encouragement of every American citizen who has the welfare of the country at heart.

Every republican in the state should be glad of the opportunity to vote for L. K. Luse for the Supreme bench tomorrow. The methods used to defeat him have been so contemptible that they should be denounced by all decent people.

City politics are soon to give away for the state fight which promises to be both short and sweet.

The Hearst boom in Wisconsin lost its backbone when your Uncle George Peck left the infant outside of Mr. Wall's door while he went in and got warm.

Milwaukee is having a lovely political fight on its hands that will be settled at the polls tomorrow. Watch David's plurality.

Russia made a backward march into Manchuria and Japan followed. Once before Russia did the same trick only that time Napoleon followed and lost his throne.

After many days of anxiety Rock river has decided to again become a nice quiet stream.

Tobacco or sugar beets? That is the question.

By six o'clock tomorrow all will be over.

PRESS COMMENT.

Ashland Press: Notwithstanding the fact that the Democratic party would like to cut and slash the present tariff law, there is continual evidence in the speeches of Democratic congressmen and editorialists of Democratic papers, that the party will endeavor to hedge considerably on the tariff question during the coming campaign.

Milwaukee Sentinel: The point overlooked by Gen. Bryant is that the Scofield administration made a contract with the city of Madison for water in the case of emergency and wrenches were provided for turning on the water at the statehouse. The contract is on record and the wrenches were in place when Gen. Bryant took charge of the state property.

Chicago Inter-Ocean: And now the retreat of the Russians has begun, a retreat which seems to have been precipitated by the loss of six killed and a score wounded. This is just like the Russians. It will be remembered that once upon a time they retreated before Bonaparte. And it will also be remembered how sorry he was afterward that they did.

Exchange: President Roosevelt says "Speak softly and carry a club." Dean Fager in his "Men I have Known," speaking of Archbishop Taft, says: "He had a large family and kindly tolerance for human stupidity, of which every public man sees so much in letters written by strangers. Handling back such letters to his chaplain he used to say, 'Tell him he is an ass—but say so kindly.'"

Cincinnati Commercial Tribune: The ships Captain Hobson is sinking in front of Congressman Bankhead's harbor are refusing to stay sunk, much to the surprise of the gallant Captain, who is fast learning the difference between political and sea-fighting.

Evening Wisconsin: The state entomologist of New Jersey—Prof. John B. Smith—has been asked if the cold weather the past winter has killed off the mosquitoes. His replies to the effect that weather 20 or 30 degrees below zero leaves the mosquito population unthinned. The Professor declares that every female mosquito in the Jersey marshes laid from 200 to 250 eggs in the mud last fall, and that, covered by mud and ice, these eggs remained unharmed and will people the air with mosquitoes in the spring. The situation in mosquito breeding places throughout the country is no doubt the same in New Jersey. The little pests do not mind cold weather. Indeed, they are more numerous and more ferocious in many localities where the winters are colder than in the marshes farther south. It was in Northern Wis-

consin that they stung some of the early Jesuit missionaries nearly to death, and near Marquette two years ago they were so terrible that they drove a gang of Italian track-layers away from their work.

La Crosse Leader and Press: The only prominent democrat democrat, of state wide acquaintance, who was for Hearst, before Mr. Wall's name was proposed, was ex-gov. George W. Peck. Since Mr. Wall became a candidate the ex-governor has ceased all connection with the Hearst movement, and says, he cannot and will not oppose Mr. Wall who has always been his warmest political friend and fellow laborer in the democratic vineyard. The governor says moreover, that he thinks Mr. Wall is excellent presidential timber. Governor Peck has a warm spot in about as many democrat hearts. In Wisconsin, his alliance with the Hearst movement virtually made him the head of it in this state. His public retirement from its leadership is the hardest blow Hearst's plans have suffered.

"How do you like, Bread Winners?" asked a young lady at a soiree a la tout ensemble in this city the other evening. The young man in polished shoes and an inordinate display of cuffs, promptly replied, "Don't like 'em all, he love. Vulgar fellows, donshuknow, and always up of styles, and asking a tellah about the tawff and all that sort a thing." And the young lady smiled a sor of a frozen smile and went and leaned on the piano and listened to a girl in pink worrying the stuffing out of one of Mendell's son's sonnetes.—Evanville Review.

THE HOME.

NO PROFANITY SHOULD DEFILE

THE LIPS ONCE SANCTIFIED BY A MOTHER'S KISS.

N. M. LITTLEJOHN'S ADDRESS

Past Grand Commander of the Knights Templar Offers Plea for Pure Life.

"No Freemason should ever allow profanity to defile lips once sanctified by a mother's kiss," said Past Grand Master N. M. Littlejohn of Whitewater in his address before the Janesville Commandery of Knights Templar at Masonic hall yesterday afternoon. "He should be ever listening to the pleadings of brothers in distress, ever walking in the light." The lofty, inspiring utterances of the speaker were all directed to this end: a plea for a better, purer, and nobler life.

Festal Day of Love.
Chaplain T. O. Howe after conducting the services of the day introduced the speaker. The latter said in part—"Festivals of Love, Ladies and Sir Knights: Sorrow and joy often stand very near to one another. Heaviness may endure for a night but joy cometh in the morning. So the sorrow that has been in all Christian hearts during the last few days has been dispelled this Easter morning. The angel has rolled back the stone and from the open sepulchre there comes to strengthen our hearts the comforting assurance of eternal life. This is a festival day of love, typifying a sacrifice of all to bring happiness to mankind. It is pleasant to remember that as the glorious sun looks down upon this revolving world it also shines on thousands of Knights and Christian people met in commemoration of that angelic announcement made over 1900 years ago—'He is risen!'"

Live the Principles.
The speaker would not claim that Masonry was a religion but he would emphatically declare that it was a religious institution. It was an open pathway leading to the church. It was a regrettable fact that some did not walk therein. Why should not even Sir Knight, a sworn defender of the Lord, who has gazed upon that soul-stirring picture of the ascending Savior ally himself with some church and let his light so shine before men that they may see his good works? Failure to attain ideals comes through indifference. Masonry, working silently and unostentatiously, has had a powerful influence in advancing civilization, promoting good government and peace. How much might have been done had every member been faithful to his duty? Fidelity to duty is the bright ornament that adorns human character. Every though the task may not be accomplished, the ideal realized, each can do his best. Persistent effort often results in unexpected successes and oftentimes we entertain angels unwares.

Universal Benevolence.
The speaker expressed his pleasure at meeting the members of the Janesville Commandery. It was here that he had received the sublime lesson of Knighthood. It was his hope that here no impure and unworthy thought might find entrance and that at this altar virtue might ever find its votaries and innocence its defenders. The universal brotherhood of man is the sure foundation upon which to build the living spirit of the order. Masonry has done and is doing good work in every community. But it is far from completed. Many fields are white for the harvest. As long as vice and wrongdoing are rife, as long as there are brothers in sickness and in need—until the dawn of the millennial day there is work for free masonry. Work does not end in the lodge room. It is much to be able to perfectly interpret the beautiful symbolism of the order; it is far better to let the principles shine forth in one's daily life. In this age of violated vows and betrayed trusts it is necessary that Masonry should be militant and active. Let not our hands hang on the willows while the world is waiting for the sower. Let us renew our efforts to make free masonry a beautiful reality instead of a beautiful theory.

NEW MYERS TO BE EQUIPPED

IN AN UP-TO-DATE MANNER AT ONCE.

RUSHING WORK AT THE HOTEL

Repapered, Repainted, Recarpeted and Refurnished from Top to Bottom.

From present indications the New Myers hotel promises to win back the prestige the old Myers so long held, as the best hotel in southern Wisconsin. Repapered, re-decorated, and re-furnished from top to bottom Landlord Donnelly and his sister, Mrs. McNeill, will spare nothing to bring the house up to the standard so long maintained. Traveling men are eagerly awaiting the opening of the hotel as it has long been a favorite with the knights of the grip.

Hard at Work.

The decorators are hard at work painting and papering the house from top to bottom. New carpets have been purchased, new furniture ordered and new curtains and linen, will make the hotel a changed place. Mr. Donnelly is a hustler and his sister, Mrs. McNeill, is more than an able assistant. They will do everything that is possible to make the remodeled hotel the hotel of the city and in this they will have the hearty cooperation of the citizens generally.

Good Table.

In speaking to a gentleman interested in the remodeling of the hotel, Mr. Donnelly said: "I shall do everything in my power to make the hotel as near perfect as possible. My sister and myself will spare nothing to make the guests comfortable. We shall take particular pains with our table and it will be furnished with the best the market can provide. A good table is an essential feature in any hotel and we intend to make this the feature of the New Myers."

Much Rejoicing.

The opening of the hotel within the next thirty days has caused much rejoicing among the business men of the city. They have heard the complaints of visitors since Landlord Johnson closed his doors and are glad now to see the arrival of a first class hotel proprietor in the city who will make the hotel a credit to the city.

NEW WAGON FOR WEST SIDE STATION

The Janesville Carriage Company Has Completed a Substantial One.

Janesville Carriage company has just finished a fine new horse wagon to be used in the west side station. The wagon is built after the latest pattern fire wagons used in the principal cities and is a credit to the builders as well as a valuable addition to the fire apparatus of the city. Instead of the usual gong it is equipped with a bell to distinguish it from bakery wagons and other wagons that now use the gong.

FUNERAL SERVICES THIS AFTERNOON

For the Late Mrs. James Shields, Held from the Family Residence on Milton Avenue.

Mrs. James Shields, aged 62 years, died at her home, No. 166 Milton avenue, Saturday evening at 10:20 o'clock. Mrs. Shields has resided in this county for several years and was respected by all who knew her. She leaves to mourn her loss two daughters, Mrs. George Witt of Evanston, Ill., and Mrs. George M. Decker of this city, and one son, William Shields of Colburn, Col. Funeral services were held this afternoon at 2 o'clock from her late home, 166 Milton avenue. Rev. Tippet officiated. The song service was rendered by Mrs. Clark, C. N. Vankirk, George Parish and Mrs. Yates. The interment was at Oak Hill cemetery. The pallbearers were George Barker, Ezra Dillenbeck, J. L. Bear, Bert Gage, George Butts and J. M. Decker.

DR. BROWN HAD SERIOUS TIME

With a Runaway Team on South Main Street Saturday—Scraped and Sprained Ankle.

Dr. R. L. Brown, the well known veterinary surgeon, sustained a serious accident while driving a team of horses on South Main street Saturday. In some manner the pole broke short and the horses became frightened and uncontrollable. To save himself Dr. Brown leaped from the rig and seriously sprained one of his ankles. He will be laid up at his home for several days.

PRIESTS ENTER LISTS

Fathers Hanz and Goebel to Enter Popularity Contest.

One of the most spirited contests in connection with the bazaar to be held next month, April 10 to 11th, for the benefit of St. Mary's hospital at Beloit, will be that between Rev. W. A. Goebel of St. Mary's church, Janesville, and Rev. J. Hanz of St. Thomas' church, Beloit. The contest is to decide which is the more popular priest. An upright piano will be given to the priest receiving the most votes. As Janesville and Beloit have indulged in some spirited contests in the past, the present one promises to be no exception to the rule.

STILL KILLING THE WEARY DUCKS

Hunters Are Violating the State Game Laws Within the City Each Day.

Despite the amusement of Game Warden Drafaul and his denial that there are any hunters violating the state game laws, all day Sunday guns were popping near the island in the upper end of the river and poor, weary ducks stopped in their flight to the north and went to fill the game-bags of hunters, not sportsmen. Every time a shot was fired hundreds of ducks would rise from the water and look in vain for the game warden who is paid to protect them and then fly wearily off to seek another resting place. The same held good in Monterey and the wide spreading waters of the lowlands, converted into lakes by the high water, gave a resting place for many ducks whose rest was continually disturbed by the popping of guns.

Is Well Paid.

Game Warden Drafaul is well paid by the state to protect the fowls of the air, the beasts of the land, and the fish of the waters, out of season. He had drawn in the past year \$900 as a salary from the state funds and \$19.27 as expenses. This, however, is but a small part of the \$85,000 expended during the past twelve months by the state treasurer and charged to the game wardens' account. Mr. Drafaul has ably protected the game of the state, but unfortunately the ducks do not come down by the Milwaukee street bridge to seek him, and hence they are slaughtered out of season at the two ends of the city.

At Lake Koshkonong.

A sportsman who came down from Lake Koshkonong last night reports that there have been many numbers of ducks hovering near the lake for two weeks past and that the popping of guns can be heard at almost all times. "Now is when the ducks should be protected," he said, "I did not see a game warden around, but I suppose after the season opens they will be thick watching for hunters who violate the sunset shooting clause."

Westbye-Holleran.

This morning at nine o'clock Miss May Juliette Westbye of Clinton and Thomas Albert Holleran of this city were united in marriage at the parsonage of St. Mary's church by Rev. Father Goebel. Miss Gertrude Westbye, a sister of the bride, and Mr. Walter E. Duxstad attended the bridal party. The bride is well known in the city, having attended business college for some months, and the groom is a printer. The happy couple left for a short honeymoon, after which they will make their home in the city.

HEARING OF THE CONDON BOY

WAS OPENED IN THE MUNICIPAL COURT THIS MORNING.

HAROLD MARSH INSTRUCTED

By the Defendant to Say That He Had Seen Smoke Near Barn, and Shot Had Come from There.

In municipal court this morning the hearing of Johnny Condon who shot the Griffin boy last week ago, was opened. Yardmaster Dave Griffin was the first witness called. He narrated the circumstances of his son's death as they were known to him and was unable to recall seeing anyone else in the vicinity of the tragedy besides the Condon boy upon his arrival there.

Marsh Boy on Stand.

Little 8-year-old Harold Marsh swore that he was sitting on the fence at the time the Condon boy was taken to the barn. He narrated in detail the circumstances leading up to the shooting and amended previous testimony to state that George Griffin was in front of Condon when the latter fired at the chicken.

What He Was Told.

The Marsh boy acknowledged that Johnny had told him after he had made his escape to say if questioned regarding the matter that he had seen smoke coming from the barn and that the shot had been fired from that locality. The Marsh boy made this statement to Officer Brown and when questioned regarding it this morning acknowledged its falsity. On every other point he reaffirmed his former statements. He asserted that there had been no quarrel between the two boys and that Condon had been firing at a chicken.

Moran of the Lady Letty

At high tide, all hands straining upon the warp, the schooner was floated out and under touch of the lightest air drew almost imperceptibly away from the land. They were quite an hour crawling out to the heads of the bay, but here the breeze was freshening. Moran took the wheel, the flying jib and staysails were set, the wake began to widen under the schooner's stern, the forefoot sang, the Pacific opened out more and more, and by 12:30 o'clock Moran put the wheel over and as the schooner's bow swung to the northward cried to Wilbur:

"Mate, look your last of Magdalena bay."

Standing at her side, Wilbur turned and swept the curve of the coast with a single glance. The vast, heat scorched hoop of yellow sand, the still, smooth shield of indigo water, with its beds of kelp, had become intensely dear to him. It was all familiar, friendly and hospitable. Hardly an acre of that sweep of beach that did not hold the impress of his foot. There was the point near by the creek where he and Moran first landed to fill the water casks and to gather albatrosses; the creek itself, where he had snared quail; the sand spit, with its whitened whale's skull, where he and Moran had beached the schooner, and there, last of all, that spot of black over which still hung a haze of brown gray smoke, the charred ruins of the old Portuguese whaling cabin, where they had outfought the beachcombers.

For a moment Wilbur and Moran looked back without speaking. They stood on the quarter deck in the shadow of the mainmast, shut off from the sight of the schooner's crew and for the instant quite alone.

"Well, Moran, it's goodbye to the old place, isn't it?" said Wilbur at length.

"Yes," she said, her deep voice pitched even deeper than usual. "Mate, great things have happened there."

"It doesn't look like a place for a long row with Chinese pirates, though, does it?" he said, but even as he spoke the words he guessed that that was not what he meant.

"Oh, what did that amount to?" she said, with an impatient movement of her head. "It was there that after all, you were a man and I was a woman, and that there was just us—you and I—in the world, and that you loved me and I loved you, and that nothing else was worth thinking of."

Wilbur shut his hand down over hers as it gripped a spoke of the wheel. "Moran, I knew that long since," he said. "Such a month as this has been! Why, I feel as though I had only begun to live since I began to love you."

"And you do, mate?" she answered. "You do love me and always will? Oh, you don't know," she went on, interrupting his answer, "you haven't a guess, how the last two days have changed me. Something has happened here," and she put both her hands over her breast. "I'm all different here, mate. It's all you inside here—all you! And it hurts, and I'm proud that it does hurt. Oh," she cries of a sudden, "I don't know how to love yet, and I do it very badly, and I can't tell you how I feel because I can't even tell to myself. But you must be good to me now." The deep voice trembled a little. "Good to me, mate, and true to me, mate, because I'm only you, and all of me is yours. Mate, be good to me and always be kind to me. I'm not Moran any more. I'm not proud and strong and independent, and I don't want to be lonely. I want you—I want you always with me. I'm just a woman now, dear—just a woman that loves you with a heart she's just found."

Wilbur could find no words to answer. There was something so pathetic and at the same time so noble in Moran's complete surrender of herself and her dependence upon him, her unquestioned trust in him and his goodness, that he was suddenly smitten with awe at the sacredness of the obligation thus imposed on him. She was his now, to have and to hold, to keep, to protect and to defend—she who was once so glorious of her strength, of her savage isolation, her unviolated, pristine maidenhood. All words seemed futile and inadequate to him.

She came close to him and put her hands upon his shoulders and, looking him squarely in the eye, said: "You do love me, mate, and you always will?"

"Always, Moran," said Wilbur simply. He took her in his arms, and she laid her cheek against his for a moment, then took his head between her hands and kissed him.

Two days passed. The Bertha Miller held steadily to her northward course, Moran keeping her well in toward the land. Wilbur maintained a lookout from the crow's nest in the hope of sighting some white cruiser or battleship on her way south for target practice. In the cache of provisions he had left for the beachcombers he had inserted a message, written by Hoang, to the effect that they might expect to be taken off by a United States man-of-war within the month.

Hoang did not readily recover his "loss of face." The Bertha's Chinamen would have nothing to do with this member of a hostile force, and the humiliated beachcomber kept almost entirely to himself, sitting on the fo'c'st'le head all day long, smoking his sun-yen-hu and brooding silently to himself.

Moran had taken the lump of ambergris from out Kitchell's old hammock and had slung the hammock itself in the schooner's waist, and Char-

lie was made as comfortable as possible therein. They could do but little for him, however, and he was taken from time to time with spells of coughing that racked him with a dreadful agony. At length one noon just after Moran had taken the sun and had calculated that the Bertha was some eight miles to the southwest of San Diego she was surprised to hear Wilbur calling her sharply. She ran to him and found him standing in the waist by Charlie's hammock.

The Chinaman was dying and knew it. He was talking in a faint and feeble voice to Wilbur as she came up and was trying to explain to him that he was sorry he had deserted the schooner during the scare in the bay.

"Plenty muchee solly," he said. "China boy, him heap kind of Peng shul. When Peng shul no likee, we then must go chop-chop. Plenty muchee solly I leave you schooner that night. Solly plenty—savvy?"

"Of course we savvy, Charlie," said Moran. "You weren't afraid when it came to fighting?"

"I die plenty soon," said Charlie calmly. "You say you giv me fifteen hundred dollar?"

"Yes, yes; that was our promise. What do you want done with it, Charlie?"

"I want plenty fine funeral in China town in San Francisco. Oh, heap fine! You buy um first chop coffin—savvy? Silver heap much—cost um big money. You giv my money to Hop Sing assocation, topside Ming Yen temple. You savvy Hop Sing?"

bench.
"It's a great winter resort," he told her. "I was down here with a party two years ago. Nothing has changed. You see that big sort of round wing. Moran, all full of windows? That's the dining room. And there's the bathhouse and the howling alley. See the people on the bench and the girls in white duck skirts, and look up there by the veranda—let me take the glass—yes, there's a tallish coach. Isn't it queer to get back to this sort of thing after Magdalena bay and the beachcombers?"

Moran spun the wheel without reply and gave an order to Jim to ease off the foresheet.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff hair. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that. No hair preparation, therefore, can be said to cure dandruff. It is the germ that kills the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. CATARRH A COMMON COMPLAINT.

Catarrh begins with a stubborn cold in the head, inflammation or soreness of the membrane or lining of the nose, discharge of mucus matter, headaches, neuralgia and difficult breathing, and even in this early stage is almost intolerable. But when the filthy secretions begin to drop back into the throat and stomach, and the blood becomes polluted and the system contaminated by the catarrhal poison, then the sufferer begins to realize what a disgusting and sickening disease catarrh is. It affects the kidneys and stomach as well as other parts of the body. It is a constitutional disease and as inhaling mixtures, salves, ointments, etc., are never more than palliative or helpful, even in the beginning of catarrh, what can you expect from such treatment when it becomes chronic and the whole system affected? Only such a remedy as S. S. S. can reach this obstinate, deep-seated disease and purge the blood of the catarrhal poison. S. S. S. purifies and builds up the diseased blood, and the inflamed membranes are healed and the excessive secretion of mucus ceases when new, rich blood is coming to the diseased parts, and a permanent cure is the result.

S. S. S. is guaranteed purely vegetable and a reliable remedy for catarrh in all stages. Write if in need of medical advice; this will cost you nothing.

ELECTION NOTICE

OFFICE OF COUNTY CLERK, Janesville, Wis., March 27, 1904.

To the Electors of Rock County: Notice is hereby given that a judicial election is to be held in the several towns, wards and election precincts in the County of Rock, on the 5th day of April, 1904, at which the officers named below are to be chosen. The name of the candidate for each office to be voted for, whose nominations have been certified to this office, are given opposite the title of the office and under the appropriate party or other designation; each in its proper column:

INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters: A voter, upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment, and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. If it be a general election these words are to follow: The voter if he wishes to vote for all the candidates nominated by any party, should make a cross mark, X, under the party designations printed at the top of the ballot in the circle made for that purpose. A ballot so marked and having no other mark, will be counted for all the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased or a cross mark be placed in the square under the name of or at any place in the space occupied by the name or names of candidates in another column, and will be counted for any name written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties he should make a cross mark under the name of each candidate he desires to vote for, or at any place within the space in which the name is printed. If he wishes to vote for a person for a certain office, whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot shall not be marked in any other manner. If the ballot be spoiled it must be returned to the ballot clerk who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in marking a ballot. Unofficial ballots or memoranda to assist the voter in marking his ballot can be taken

ILLINOIS COAL MINERS SIGN TWO-YEAR SCALE

Agreement Is Unanimously Adopted at Meeting With Operators and Strike Is Averted.

Springfield, Ill., April 4.—The Illinois coal miners and operators Sunday signed the state agreement, effective for two years. There was not one dissenting vote in the joint convention against the agreement reached by the joint scale committee. The scale, which averts the possibility of a strike, follows:

First District—Streator, Cardiff, Clarke City and associated mines, 61 cents.

Second District—Danville, Westville and associated mines, 52 cents.

Third District—Springfield, Dawson and associated mines, 52.7 cents.

Fourth District—Chicago and Alton district, including Carlinville, 52 cents.

Fifth District—Glen Carbon and Belleville, 52 cents.

Sixth District—Duquoin, Odell, Sandoval and Centralia, 48 cents.

Seventh District—Mount Vernon, 52 cents; Jackson county, 48 cents.

Eighth District—Fulton and Peoria counties, 79 cents.

Ninth District—Mount Olive, Staunton, Gillespie, and associated mines, 52 cents.

GIVES UP LIFE FOR HIS SINS

Conscience-Stricken Farmer Starves Himself to Death.

Cass Lake, Minn., April 4.—A story of the fanaticism, which resulted in the death, virtually from suicide, of Mathias Brenna, has just been related here. He was a well-to-do farmer living in the town of Eden, near the village of Fosston, and had been possessed for some time with the hallucination that he must, on account of his sins, do penance by continuous fasting. For a year past he had taken nothing at his meals but bread and water, and a month ago decided to eat absolutely nothing until after March 24. Relatives attempted to force him to take nourishment, and doctors were called to assist in inducing him to feed himself, but all to no purpose, and, after suffering untold agony, Brenna died from actual self-imposed starvation.

SORRY NOW SHE KISSED HIM

Cincinnati Man Almost Loses Tongue in Osculatory Contest.

Cincinnati, O., April 4.—"We had a kissing contest and she almost bit my tongue off, Doc," said Jeff Payne, aged 24, a laborer of 3003 Eastern avenue, as he asked Dr. John Stiemler, a resident physician at the Cincinnati hospital, for treatment. Payne had a badly lacerated tongue, but he seemed to consider the affair a joke on himself and laughed while the doctor was heroically treating his tongue. He refused to give the name of the girl and left the hospital as soon as treated.

WANTS THE JEWS SLAUGHTERED

Vienna Publication Calls for Repetition of Kishineff Massacre.

Vienna, April 4.—Die Zeit publishes an anti-Jewish proclamation, issued by the Orthodox association of Odessa, urging Russians to follow the example of their brethren who settled their accounts with the Jews at Kishineff last Easter. It declares that the victory is incomplete, for Satan has incarnated himself in the Jews, who, allied with foreigners, brought on the Japanese war. A serious outbreak is feared April 17.

SPARKS FROM THE WIRES

The Zeta Psi association of Washington gave a complimentary dinner at the Hotel Normandie to Charles H. Darling, assistant secretary of the navy, in honor of his election to the presidency of the association. He succeeded Dr. Joseph Nisano, Jr., who retired after a service of twelve years.

Postmaster General Payne's condition has improved sufficiently to permit him to go downstairs. He was anxious to get out for a drive yesterday, but this was deemed inadvisable because of the cool weather. Preparations are making for the postmaster general's southern trip, on which he expects to start this week.

The North German Gazette, a government organ, denies the rumors printed in London and circulated in the United States that the health of Emperor William is such that it gives occasion for concern. The paper adds that the emperor's condition of health remains excellent and that the voyage he is now on gives every prospect of full success in recuperating his strength.

Among the passengers who arrived in New York on board the steamer Coamo from Porto Rico were W. F. Willoughby, treasurer; R. Post, auditor, and Manuel S. Domenech, member of the house of delegates, who came to consult the secretary of the treasury about placing a loan for general improvements in Porto Rico. D. S. Lindsay, commissioner of education, who was also a passenger, will try to raise a fund to send 600 Porto Rican school teachers to take summer courses at various universities.

STICKS TO OLD CUSTOM.

New Hampshire is one of the few states that will follow the ancient custom of having each spring a day of fasting and prayer by proclamation of the governor.

MORMONS SAY THE LORD WILL RECOGNIZE VALOR

President Smith Is Commended for His Courage in Defending the Principles of the Church.

Salt Lake City, Utah, April 4.—Prayers and addresses which are taken here to mean a determination to defy the world in the matter of polygamy were made Sunday at the general conference of the mormon church. Direct and indirect references were frequently made to the testimony of President Joseph W. Smith before the senate committee standing up for polygamy.

Joseph E. Taylor, counselor to the president of the Salt Lake stake, in his opening prayer thanked God for President Smith's valor in defending the principles of the church abroad.

President Smith said he felt sure the Lord would reward his people for standing up for their religion.

Apostle Francis M. Lyman urged his hearers to "multiply and replenish the earth." He declared that when President Smith spoke God spoke through him and the instructions must be followed.

FORCED TO CLOSE CHURCHES

People of Des Moines Are Seriously Affected by the Coal Famine.

Des Moines, Iowa, April 4.—Because of the coal strike which has been declared by Iowa miners seventy-five churches in Des Moines will close their doors until the present coal famine has reached an end. Retailers have advanced the price of fuel over \$1 per ton, and even then the supply is about exhausted. The leading hotels have but enough to last a few days. The decision to close the doors of the sanctuaries was announced at Easter services.
